Note on this document. This is the only record in the production that fixes a date for the Cane matter: the Information alleges an offence "on or about 05/30/2024" and bears a proof of service dated 06/20/2024. Nothing in the production states what happened after that date. The office produced the charging document for Cane while simultaneously certifying that no record of Cane's status exists and asserting that any such record is an exempt court document. The proof of service is itself an internal office record showing that the office tracks service in this case.
