Hello everyone –
As you know, the TS Committee has been working on reviewing and recommending a system to replace ACT/JCT. This is obviously a very important decision that will effect the vast majority of the counties. The only counties that will not be effected by this change are those that currently or will soon be using Karpel. We have scheduled a day of demos from each company that we are considering.

The demos will be held on Zoom on November 10 beginning at 1 p.m. The schedule is as follows:

1 pm – LawBase/OnBase
2 pm – Karpel
3 pm – Equivant

We are asking you to please share this information with all of the ACT/JCT users in your office that would be interested in participating. After the final demo is over at 4 pm, we are going to stay on the meeting and discuss the demos that were just presented and send out polls to get your feedback. If you can't stay for all three demos, you are welcome to attend some or all of them. If you are not available for the discussion portion of the meeting, then please email me your thoughts and feedback.

The Zoom link is:

PAAM Executive is inviting you to a scheduled Zoom meeting.
Topic: ACT replacement Demos
Nov 10, 2022 1:00 PM

Results for the ACT/JCT replacement system:

There were 66 votes cast.
Karpel had 78.78% of the votes cast in their favor, with 52 votes.

We are going to continue to work on funding options to offset the cost of implementing a new system. We will keep everyone informed of the status of the funding request as we know more.

Thanks –
Dianna

Subject: VOTE and FINAL meeting ACT/JCT replacement system March 7 at 3 p.m.
Importance: High

Hello everyone –
At the PAAM Business Meeting on Friday February 17, a vote was scheduled to select the system that would eventually replace the ACT/JCT case management system. Due to low attendance, those present voted to hold one final meeting for purposes of selecting a new system to replace ACT/JCT, and then to allow electronic voting over multiple days to ensure that any elected prosecutor who wanted to vote would have the opportunity to do so.

Below is a short list of budget and system features for each potential vendor, along with contact information for each vendor's representative that the TS Committee and PAAM's team have been working with throughout this process. *Please feel free to directly contact these representatives with any questions.* Over the past year, extensive information on each of these vendors has been provided on the PAAM MEPF forum. Below are just a few highlights. You will note that one-time and on-going costs for each of these systems are significantly higher than each county's current ACT/JCT costs. PAAM continues to work on identify funding sources to assist with some of these initial one-time costs of licensing fees that would enable roll-out of the program to each county currently using ACT/JCT.

The ***final meeting*** to select the vendor PAAM will pursue funding for will take place on Tuesday March 7, 2023 at 3 p.m. via Zoom. The Zoom link for that meeting is below. Please plan to attend this important meeting. If you want a say in the deciding which vendor is selected, ***please make sure to vote***. Selecting a vendor will enable PAAM to work toward securing the necessary funding.

PAAM Executive is inviting you to a scheduled Zoom meeting.
Join Zoom Meeting
https://mipaam.zoom.us/j/86493606732

I will send this information directly to your email and post it on the forum. We hope to see you at the meeting.

- **Jworks/Equivant**
- Budget Information
-
    - $975,000 for licensing.
    - $2,713,095 for implementation. These costs can be spread over four years at rate of $678,476 per year.
    - With 1,000 users, the on-going annual cost would be approximately $429,000 or $429 per user.
    - Unknown costs include: migration of the data from ACT/JCT, some of the necessary API connections, training, and unknown costs that may be necessary.
- System Features
-
    - Offer both a case management and document management system.
    - The initial rollout will be for a case management system, with document management at a later date.
    - Rollout takes place over a 4-year period.
    - Allows for customization but requires additional work to determine what those items should be.
- Contact person for any questions: Katie Brachel at katie.brachel@equivant.com

- **LawBase/OnBase**
- Budget Information
-
    - $500,000 implementation fee.
    - With at least 500 users, cost is $175 per user per month, making the annual on-going cost $2,100 per user for the case management system only. With 500 users the total annual fee = $1,050,000.
    - Unknown costs include: migration of the data from ACT/JCT, some of the necessary API connections, training, and unknown costs that may be necessary.
- System Features
-
    - This is a case management system only.
    - It is compatible with OnBase, so current OnBase users would be able to connect with this system.
    - Counties could independently contract with OnBase for the document management system, or a statewide option could be explored.
    - Rollout takes place over a 2-3 year period.
    - Allows for customization but requires additional work to determine what those items should be.
- Contact person for any questions: Tim Zarzycki at tzarzycki@imagesoftinc.com

- **Karpel**
- Budget Information
-
    - Estimate for years 1-3 increase each year as new counties are added, based on implementation and licensing fees per county and per user. Total = $8,470,374 with 67 rollouts and 1,000 users.
    - Years 4-5 (after rollout is complete) show a decrease in cost at $1,124,725 per year. With 1,000 user the annual on-going cost = $1,124 per user.
    - Unknown costs include: migration of the data from ACT/JCT, some of the necessary API connections, training, and unknown costs that may be necessary.
- System Features
-
    - Includes both case management and document management in the same system.
    - Rollout takes place over a 3-4 year period.
    - Does not allow for much if any customization of the system.
- Contact person for any questions: Blakelyn Bailey at bbailey@karpel.com

Prosecutor Case Tracking System

From : Lauren Wickman <lwickman@deltacountymi.org> Wed, Mar 08, 2023 07:30 AM

Subject : Prosecutor Case Tracking System

To : Ashleigh Young <ayoung@deltacountymi.org>, Brandon Couvillion <brandon@deltacountymi.org>

Ashleigh,

I wanted to bring this up before any sort of budget planning that might occur. The Prosecutor's Association is looking at shifting to a new case tracking system that would more up to date than our current system. This is going to likely cost some additional funds than what is currently budgeted for the PAAC dues. I have also included Brandon as it obviously includes some IT involvement and I am not sure of any familiarity he has with any of the programs. Here is a rough break down:

Jworks/Equivant
Budget Information
$975,000 for licensing.
$2,713,095 for implementation. These costs can be spread over four years at rate of $678,476 per year.
With 1,000 users, the on-going annual cost would be approximately $429,000 or $429 per user.
Unknown costs include: migration of the data from ACT/JCT, some of the necessary API connections, training, and unknown costs that may be necessary.
System Features
Offer both a case management and document management system.
The initial rollout will be for a case management system, with document management at a later date.
Rollout takes place over a 4-year period.
Allows for customization but requires additional work to determine what those items should be.
Contact person for any questions: Katie Brachel at katie.brachel@equivant.com

LawBase/OnBase
Budget Information
$500,000 implementation fee.
With at least 500 users, cost is $175 per user per month, making the annual on-going cost $2,100 per user for the case management system only. With 500 users the total annual fee = $1,050,000.
Unknown costs include: migration of the data from ACT/JCT, some of the necessary API connections, training, and unknown costs that may be necessary.
System Features
This is a case management system only.

It is compatible with OnBase, so current OnBase users would be able to connect with this system.
Counties could independently contract with OnBase for the document management system, or a statewide option could be explored.
Rollout takes place over a 2-3 year period.
Allows for customization but requires additional work to determine what those items should be.
Contact person for any questions: Tim Zarzycki at tzarzycki@imagesoftinc.com

Karpel
Budget Information
Estimate for years 1-3 increase each year as new counties are added, based on implementation and licensing fees per county and per user. Total = $8,470,374 with 67 rollouts and 1,000 users.
Years 4-5 (after rollout is complete) show a decrease in cost at $1,124,725 per year. With 1,000 user the annual on-going cost = $1,124 per user.
Unknown costs include: migration of the data from ACT/JCT, some of the necessary API connections, training, and unknown costs that may be necessary.
System Features
Includes both case management and document management in the same system.
Rollout takes place over a 3-4 year period.
Does not allow for much if any customization of the system.
Contact person for any questions: Blakelyn Bailey at bbailey@karpel.com

We had a Zoom call with all the Prosecutor's offices to discuss. It definitely appears the Karpel option is the most popular choice, and many offices already run the system. There is going to be coming up for a vote. After there is the vote, I can get with you for further information/cost estimate etc. This might not start immediately as well but don't want to sit on the information as well.
